**DETAILED ACTION**

1. This action is in response to the communication filed 1/23/2004.
2. Claims 1-16 were received for consideration.
3. No preliminary amendments for the claims were filed. Currently claims 1-16 are under consideration.

***Election/Restrictions***

1. Restriction of the following inventions is required under 35 U.S.C. 121:  
Restriction to one of the following inventions is required under 35 U.S.C.  
121:
  - I. Claims 1-9, and 13-16, drawn to a method and system for compressing of  
a Rabin Signature, classified in class 380, subclass 269.
  - II. Claims 10-12, drawn to a method of compressing an RSA signature,  
classified in class 380, subclass 269

The Inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as subcombinations disclosed as usable together  
in a single combination. The subcombinations are distinct from each other if they are  
shown to be separately usable. In the instant case, inventions I and II have separate  
utility such as Group I is directed towards compressing a Rabin signature, and Group II  
is directed towards compressing a RSA signature. See MPEP 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their difference classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143)

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Saoussen Besrour whose telephone number is 571-272-6547. The examiner can normally be reached on M-F 8:30am to 5:00pm.
